Developer name: - Edwin A

Project name: - Learner's Academy

E-mail Id: - edwin.dass50383@gmail.com

Software used in project: -

Operating system: - Windows 10

Processor: - intel i3

Language: - Java 18

JSP: -3.0

Servlet: -5.0

MySql: -8

Server: - Tomcat 10.0.23

Eclipse IDE Version: - Version: 2022-06 (4.24.0)

Microsoft word: - 2019 Home & Student

Objective: - This project is created for backend administrative portal for the Learner's Academy. This is a website where admin can login and access all the pages related to teachers, students, classes and subjects.

I've done the above project as per my best effort, but it tooks a lot of time to prepare it . Used software while creating this project is mention above. Also, what we have done in this project as per the requirements of Learner's Academy is also mention above.

Please give your valid input for the project.

Thank you so much.
